Everyone's Interest towards choosing career is different and I keep that in mind while choosing candidates for particular role. I believe personalized counselling is essential when hiring candidates for particular position.

As a Recruitment Advisor, I would like to learn about your strengths in the areas of expertise and interests irrespective of relevancy to particular position I am hiring for, to see how best we can utilize the skills you have and guide you towards right career.

I understand my candidates are in different stages of life, you might be juggling to choose your career with no clarity & support, you might be in between jobs, you might be adding a new member to your family or a dependency to take care of your existing family members and hence would like to change your job and increase your salary. So we can work to choose the right approach to best fit your goals. Once your custom tailored career plan is in place, we can continue working together to review achievements against your stated aims and ensure you are comfortable and everything is moving forward according to the plan.

If you have any questions about your career plan in IT/ Management, We will set up a time to meet Face to Face/ Online to review your needs and address any questions you may have.

Higher education also includes teacher-training schools, junior colleges, and institutes of technology.

TOEFL Test Test of English as a Foreign Language. Many Universities and colleges around the world use it's score to judge test taker's English skills.

IELTS International English Language Testing System. It's very similar to TOEFL. It's popular in UK, Australia & Canada. It's score is also used for immigration purposes (in some countries)

The GRE verbal section is generally more difficult than the GMAT verbal section; that difficulty is in large part driven by the extent to which the GRE tests tough vocabulary," Edmonds says.

Days Webinar on "Career Guidance on Higher Education Abroad"

From 17th to 21st JAN 2022.

19/01/2022 (Day 3): Details on GRE(Graduate Record Examination).

Resource Person

Ms Bhavani Kowdike

Director EDWAY Education Consulting, Bengaluru.

GRE General Test or Graduate Record Examination General Test is a standardized test that lets you showcase your ability to graduate schools. Many international universities including most in the US and Canada use GRE scores as a measure of a candidate's potential.

GRE online test is conducted on almost all working days in a year, providing you flexibility with planning your GRE prep. You can attempt the GRE entrance test as many times as you like. With Score-select option, you can decide which GRE score should be shared with the graduate school of your choice.

GRE tests you across three broad skills:

1. Verbal Reasoning
2. Quantitative reasoning
3. Analytical Writing

These are the skills that a graduate student will have to employ on a daily basis. The GRE scores, therefore, form an important part of the admissions requirements for both MS and Ph. D. programs in English speaking countries.

GRE Examination is conducted by Educational Testing Services (ETS), a New Jersey-based company with long-standing repute and quality.

Should you take the GRE test?

If you are planning to apply to graduate or business schools internationally, you should take the GRE exam. This forms part of the admissions requirement for many courses including master's, MBA, J.D. degree or a doctoral degree.

Admission, as well as fellowship panels, would look at your GRE score in tandem with your other achievements including undergraduate records, and recommendation letters when deciding on your candidature.

GRE exam is an ideal choice for you as:

1. The GRE score is widely accepted by universities and institutes across the US, Europe, Canada, Asia Pacific, Middle East, Africa, and Latin America.
2. GRE test is also considered by many scholarship and fellowship programs.
3. Ability to retake the exam as required until your test score reflects your true potential.

A few law schools also accept GRE scores. These include

1. American University Washington College of Law
2. Boston University School of Law
3. Brooklyn Law School
4. Chicago-Kent College of Law
5. Columbia Law School
6. Harvard Law School
7. Florida International University College of Law
8. Cornell Law School
9. John Marshall Law School
10. New York University School of Law

GENERAL TIPS II

- The first questions are weighted more heavily than the rest
- It's not the number of questions you get correct that determines your score it's the level of difficulty
- Questions increase in difficulty as you answer questions correctly
- Concentrate on getting a series of questions in a row correct
- Answer as many questions as possible
- If you are not sure, guess
- Pace yourself, but be aware of your time
- Confirm your answers only when confident
- Be careful about exit and quit commands

TEST PROCEDURES AND REGULATIONS

- Two 5 minute breaks, cannot be exceeded
- No eating or drinking in testing center
